**TEAM 17** SINISTERSOFT Established since 1990, Team 17's LIMITED longest-standing relationship Joining a short list of devs also has been with worms...well, the Worms series to be exact. With the working on touch-screen devic Ouya, the team behind the real multiplayer franchise reaching back nearly 20 years to its first release, released retro arcade game Arcade Edition has more of the studio's other output in the form background based in Win of the Allen Breed series - all three old-school emulator pro of which released on XBLA - flexes a different muscle than the goofy trademark brand they're better known **VICO GAM** for. But between the science-fiction shooter gameplay of the latter and the **STUDIO** lapstick fun of the former, we hope Ujen Tchoukhrov's pa feam 17 has the chance to try out ever help inspire a love for pri newer things with its self-publishing liberties on Xbox One. and games in his fellow in developers, VICO only has c

currently underway - an BombPong: Space In **ONEKSOFT GAMES** onthuciac Shahed Chowdhuri's got a day job already, but in his spare time he cra XBLIG games and tools for his fellow elopers. With a math game and a **SIGNAL STUDIOS** pair of platformers under his belt, it's The team behind both the Toy his XBLIG Sales Data Analyzer and XNA Soldiers series and the recent free lasic Starter Kit that has his peer to-play actioner Ascend: Hand of Kul. mpioning him Signal's induction into the ID@Xbox program is a no-brainer and an excit-
